Title:	Census on George Town's heritage zone		

Census on George Town's heritage zone

The George Town Population and Land Use Survey has begun collecting data on Penang's capital population and usage of each premise within the heritage core and buffer zones.

The census will continue until January 2010 and is undertaken by George Town World Heritage Office, Penang Town and Country Development, Penang Municipal Council and Think City Sdn Bhd which is a Khazanah Nasional Bhd subsidiary.

It will cover 5,000 buildings in the core and buffer zones with a view to know what exactly exists in the city.
